FY2025 Performance Review & FY2026 Outlook

The story in one view

Revenue growth is real — but execution against plan is slipping

MoM vs YoY growth (%)

Budget variance %, by month

Operational deep-dive: headcount & marketing overspend

Headcount grew ahead of plan — 62 actual vs 55 budgeted. Marketing reached 28% of December revenue (\$185K) vs a \$120K budget — the single largest cost overrun of FY2025 at \$453K annualized, without a proportional increase in new merchants.

HEADCOUNT, EOM DEC-25

55

Budgeted

62

Actual

+7 unplanned hires (+12.7%)

Adding sustained payroll pressure on top of the revenue miss.

Marketing spend: budget vs actual (\$'000/mo)

SECTION 2 — EBITDA BRIDGE

EBITDA bridge: budget to actual (FY2025, \$'000)

Liquidity risk & the path to cost discipline

CASH RUNWAY

4.2 months

vs. 12-month Board minimum target

0

12 mo target

Cash on hand (Dec-25): **\$808K**
Avg. monthly burn (Q4): **\$194K/mo**

2026 COST OPTIMIZATION PLAN

Marketing discipline (channel cuts + 20% revenue cap)

\$453/yr

Cap Customer Acquisition Cost (CAC) per channel

Freeze the 8 planned Q1 2026 hires until EBITDA improvement is confirmed **\$430K/yr**

Total estimated annual impact

\$883K

Path to breakeven — and what it depends on

CONTINGENT ON

- Marketing spend staying disciplined
- Headcount growth staying controlled despite planned Q1 hires

If either slips, breakeven could push into 2027.

RECOMMENDATION

Draw part of the \$1.5M credit facility now to protect the 4.2-month runway — paired with the cost controls above, not as a substitute for them.
